**Description**

Here's a refreshing and easy cocktail recipe using passion fruit and alcohol — perfect for students, parties, or summer evenings.

**Ingredients**

- 1 fresh passion fruit (or 40 ml passion fruit purée/juice)
- 40 ml white rum or vodka
- 10 ml lime juice (fresh)
- 10 ml simple syrup (or 1 tsp sugar)
- Sparkling water or prosecco to top
- Ice cubes
- (Optional) Mint or lime wedge for garnish

**Instructions**

1. Scoop out the passion fruit pulp into a shaker or glass.
2. Add rum/vodka, lime juice, and syrup/sugar.
3. Fill with ice and shake well (or stir if using a glass).
4. Pour into a glass and top with sparkling water (for a light version) or prosecco (for something fancier).
5. Garnish with mint, lime, or a slice of passion fruit.
6. ? Tips: Use frozen passion fruit cubes to chill and flavor at once. For a sweeter drink, increase syrup or use a flavored soda instead of sparkling water.
